Lahoux Optics

# Lahoux LVS-7

## Night vision goggle

The Lahoux LVS-7 Goggle is a robust and light night vision binocular. It is a Goggle that has proven to be very reliable. It is possible to order the Lahoux LVS-7 as a kit with complete adjustable head mount that allows for comfortable long-time use. The Lahoux LVS-7 is an excellent choice for government and for use during hunting and outdoor activities, and is ideal for short and medium distance observation.

The Lahoux LVS-7 is available with all Photonis™ Image Intensifier tubes in green and Onyx™. We recommend Supergen™, XD-4™, XR5™ or High FOM™.

### Advantages

- Multifunctional: hand-, head- or helmet carrying possibility
- Shock resistant mounted lenses and image intensifier tube
- Lightweight, robust and waterproof
- Photonis™ image intensifier tube
- Long battery lifetime (>50 hours)
- Equipped with temporary or permanent IR lamp
